to Erect Great University Memorial.

New York, N. Y., Feb. 3.—Planning for the largest birthday present in his-tory to be given by the American peofor the father of their country on the 22nd of this month, leaders of the national movement to build a \$2,500 000 George Washington Memorial hall, at Washington, D. C., are completing their campaign to assure the project in this city today. With the active support of every national patriotic and learned ciety, as well as thousands of public spirited citizens, already secured, the George Washington Memorial associa-tion is now confident that the people of this country will join to celebrate | Washington's birthday this year by offering this living monument to carry out Washington's wish for the 'general diffusion of knowledge." If every American will lend a hand during the next few weeks, it is declared, this great auditorium, that is sadly needed by all the national organizations of the country, may be really started on the 178th anniversary of the birth of the first president.

Working Hard for Funds. Hundreds of members of the Washington Academy of Sciences, the National Federation of Art, the National

Avoid Harsh Drugs Many Cathartics Tend to Cause Injury to the Bowels.

at its best,

Medical association, as well as of the Grand Army of the Republic, the United Confederate Veteraus, the Daughters of the American Revolution, the United Daughters of the Confederacy, the Sons of the American Revolution, and other patriotic bodies are today actively working to enlist the support of the people in every section of the country for this Washington ine-Thousands of children in the schools of every state in the union are also reported to be calling upon their playmates to give a dime to buy one Americans Hope to Be Able brick in the great structure that will brick in the great structure that will carry out Washington's last wish. Preachers, teachers and public speakers are volunteering from many communities to rally their townsmen for the big Washington's birthday project. In every town in the land it is proposed to hold mass meetings and raise funds for this birthday gift of the American people to George Washington.

To Promote Knowledge.

To "promote institutions for the general diffusion of knowledge," according to the parting admonition of Washington to his people, is the object of the proposed headquarters and auditorium that is to be built for all the learned societies of the nation in his name, Leaders in scientific and educational work today assured Mrs. Henry F. Dimock, president of the George Washington Memorial association, who is leading the movement at 25 East 60th street, in this city, that the present lack of adequate convention facilities at Washington is seriously hampering their progress, as well as shaming this country in the eyes of the learned societies of other nations. Nothing could further the spread of science and knowledge better than the erection of such an institution as the George Washington Memorial hall, they de-

The Debt We All Owe.

"Every American owes a moral debt o George Washington, whose last request of his people was for just such an institution as we hope to see raised in his name," said Mrs. Dimock today. "It is to carry out the dearest wish of our first president that we are asking all loyal Americans to contribute to the establishment of the George Washington Memorial hall, which we are assured is the thing most needful to promote knowledge in the nation today. Every contributor will receive a certificate as a holder of a perpetual interest in the big building, as well as a souvenir button from our headquarters at 25 East 60th street, where substantial support is already being re-ceived from all over the country."

called to him cheerily:

salls a treacherous sea."

my," was the calm answer.

Bartelmy was showing not the slightest besitancy at using his beautiful and accomplished daughter as a decoy in his plottings. In the first place, he desired that she should marry Wheeler Brand, boping that the young reformer's zeal against him would disappear; secondly, by prevailing on her to pay attention socially to the Nolan family he was confident that the owner of the Advance would

capitulate and become his friend. As for Judith, she little comprehended the entire significance of her father's attitude, and if she had, her frank, genuine nature, which revolted at trickery and deceit, would not have permitted her to continue to do his bidding. She admired and loved her father.

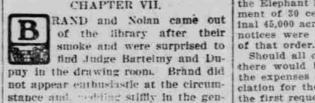

She knew that her mother before her had aided her father in his work and ambitions to a considerable extent, and now that her mother was no longer alive she felt it her duty to fill her place in every possible way. After all, she had only a young woman's knowledge of the ways of men in the business and professional world, and she could discern in the attacks on her father nothing beyond what he himself had taught her to believe-that they were the efforts of envious men or ignorant reformers or misguided fanatics, who assailed him entirely without just cause. However, it would seem that the judge would in

any event have attempted to conceal from others his motives for procuring the presence of Judith at the Nolan home on this day. It would seem, no matter how low he had sunk, that he would have denied that he had ever employed her unsuspectingly as a decoy on other occasions. That was the least this father could do for his daughter. But he made no attempt to protect her reputation, at any rate to Dupuy, for in answer to the lawyer lobbyist's remark that he had done "just the right thing to bring Miss Judith today" he replied with his characteristic coolness:

"Oh, in matters of this kind my daughter is of the greatest help to me!" After a moment he continued. "I don't at all like your idea, Dupuy, of my proposing this man Nolan at the club."

"That's our trump card," insisted the other. "Every man has his priceeven this young Brand if we could only find out what it is."

fied in the most jovial of manners:

"Brand sin't at sea, judge," put it

Nolan good naturedly. "He's in the clouds. The air up there makes your nose bleed; but, by the Eternal, you

see all that's going on down here." There was much "going on down bere" that Bartelmy by all means preferred to have remain unseen, yet he managed to reply, with an attempt at sincerity:

"More power to you, Wheeler! More power to you."

Nolan stepped toward the jurist. "You're a generous foe, Judge Bartelmy." he said warmly, deceived by the smooth tactics of the judge.

"Foe? That's hardly the word," responded Bartelmy, and with deference: "Wheeler and I merely energize differently. He is dynamic; I am static, and that is because he is young and I am old."

"He'll outgrow that, judge, You never will." remarked Dupuy, crossing to

LAND OWNERS MUST PAY

Assessment Is Called From the Valley Farmers to Pay Expenses of Their Association.

Does an acre of valley land look like 30 cents? It does to the Water Users' association. It looks like much more than this amount, but 20 cents an acre is all the Water Users' association, which is, in fact, the landowners themselves, since the association is a cooperative one, asks for at the present time. Notices were recently sent to all in the valley that are signed up under the Elephant Butte project. An assessment of 30 cents an acre on the original 45,000 acres was ordered, and these

Should all of the assesments be paid, clation for the past five years. This is the first request the Water Users' asso-clation has made for funds. The bene-1916. fits received so far have been directly aused by the service of the association. The board of governors now wishes to pay the indebtedness of the association. To do this, the 30 cents per acre assessment. This assessment, if paid in full, will cover the present indebtedness, amounting \$9000, and will provide about \$3000 for the maintenance and expenses of the association when the amount of the unpaid assessments are deducted.

Landowners Pay Promptly. The assessments are being paid with urprising promptness, according to the officials of the Water Users' associa-Not only are the owners of the original 45,000 acres making an effort to pay promptly, but the holders of the additional 50,000 acres of land in the valley who have conditionally entered their lands have written and called at the office of the Water Users' association, wishing to know why they were not asked for the same assess-ment as the owners of the 45,000.

"We have no right to collect the assessment only from the owners of the 45,000 acres originally signed up," Felix Martinez, chairman of the executive committee and secretary of the associa-tion, said. "The government has been making a survey of the valley for the past nine months and will complete the survey in about four months more When this is completed it will be definitely known exactly how much of the original 45,000 acres are irrigable and what part is not irrigable. Then a part of the supplimentary 50,000 acres will be acted upon by the Water Users' asoctation and as much of it will be admitted as will make the total of 45,000 acres after the deduction of the non-irrigable land is made.

The Water Problem. "It is thought that there will be wa-ter enough for all, but the acreage above the revised 45,000 acres will probably have to come in as buyers of water from the association from year to year. The landowners are paying the 30 cents per acre assessment with promptness, and it is well that they are, for the ewners of the land not signed up are waiting engerly for a According to the circular letter sent

chance to pay the assessment." out regarding the assessment, the nonpayment of the acreage assessment on each acre will cause the filing and entry to be canceled, and the next filing and entry in order will be admitted in its place, and the owner of the land upon which the assessment was not paid will not be considered a member of the association. The time limit for the navment of the 30 cents per acre assessment is Feb. 21.
